

LIKHITH GOWDA B R

Bengaluru, Karnataka | +91 7899414689 | likhithgowda08052005@gmail.com | [GitHub](#) | [Portfolio](#) | [LinkedIn](#)

CAREER OBJECTIVE

Information Science undergraduate with hands-on experience across full-stack web development, applied AI/ML, and cybersecurity fundamentals. Skilled in building RESTful applications with Node.js/Express/MongoDB and Python-based AI tools; seeking a Software Development role to design and ship scalable, reliable software.

TECHNICAL SKILLS

Languages: Python, Java, SQL

Frontend: HTML5, CSS3, Bootstrap, JavaScript, React.js

Backend: Node.js, Express.js, EJS, Mongoose, REST APIs

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code

Core Strengths: Problem-Solving, Time Management, Team Collaboration

PROJECTS

ExploreHub – Community-Based Local Discovery Platform

Node.js, Express.js, MongoDB, EJS, Bootstrap, clouinary, Passport, Leaflet.js, OpenStreetMap

- Developed an MVP of a community-driven local discovery platform enabling users to explore and share places through images, reviews, categories, and interactive maps.
- Designed secure CRUD functionality with RESTful APIs, modular architecture, user authentication, and location-based place discovery using MongoDB and Express.js

AI-Based Password Strength Prediction & Cryptographic Hardening

Python, Machine Learning, Cryptography

- Developed a machine learning model to predict password strength and generate actionable security recommendations for users.
- Implemented cryptographic hardening techniques for password storage, reducing exposure to brute-force and dictionary attacks.

AI Voice Assistant

Python, OpenAI API, Speech Recognition, Text-to-Speech

- Built an AI-powered voice assistant integrating speech recognition, an LLM-based response engine, and text-to-speech synthesis for hands-free interaction.
- Designed a modular pipeline separating input capture, response generation, and audio output, enabling easy extension to new voice commands.

INTERNSHIP EXPERIENCE

Cybersecurity Intern — Theta Dynamics

Jun 2025

- Supported Security Operations Center (SOC) activities including real-time security monitoring and threat analysis.
- Assisted in incident detection and log analysis, contributing to faster identification and response to potential threats.

PROFESSIONAL DEVELOPMENT

Samsung Innovation Campus — Artificial Intelligence & LLMs

Jun 2025

Selected via competitive college assessment; trained in AI, Data Science fundamentals, and Large Language Models.

- Data preprocessing using Python libraries (NumPy and Pandas) to prepare data for machine learning and visualization.
- Supervised and unsupervised learning concepts and applying suitable machine learning algorithm to a given problem.

EDUCATION

B.N.M Institute of Technology, Bengaluru

2023 – 2027

B.E. in Information Science and Engineering — CGPA: 9.35

Cambridge PU College

2021 – 2023

Pre-University College (PUC) — 93.67%

CERTIFICATIONS & ACHIEVEMENTS

- Information Security Certification — FreeCodeCamp.org
- AWS Academy Cloud Security Certification — Amazon AWS Academy
- Data Science in Python — Springboard
